Technology Fast 500 Ranking EMEA 2005

Audit. Tax. Consulting. Financial Advisory.

Foreword

Welcome to Deloitte Touche Tohmatsu's (DTT) Technology Fast 500 Europe, the Middle East and Africa (EMEA), one of the most comprehensive and respected rankings of the region's fastest-growing technology companies. The DTT Technology, Media and Telecommunications (TMT) Industry Group, made up of the TMT practices of DTT member firms welcomes companies from 21 countries to this fifth annual ranking.

This year's winners – are once again ranked on their revenue performance over the past five years based on publicly available data continue to show exceptional growth. Average revenue growth over the last five years was 935 percent and the top five companies showed average revenue growth rates of almost 30,000 percent. No wonder that, in this year's survey of Fast 500 CEOs confidence in maintaining growth has reached an all time high.

While communications and networking companies were four of the top winners this year, the software sector continues to dominate overall. Internet, life sciences/biotech, semiconductor and computers/peripherals companies are also well represented.

This year, DTT again presents a survey of Fast 500 CEOs outlining their strategies, aspirations, fears and ambitions. The respondent CEOs have provided us with their views on issues ranging from critical success factors and challenges to macro-economic trends and emerging sectors.

This is a special time for the technology sector. The DTT TMT Industry Group is honored to be able to celebrate the achievements of these exceptional companies and hope their example will serve to inspire many other technology companies both now and in the years ahead.

DTT's TMT Industry Group at a glance

International presence

- More than 5,000 member firm partners, directors and senior managers supported by thousands of other professionals dedicated to serving TMT companies
- Member firm practices in 45 countries
- Member firm centers of excellence in the Americas, EMEA and Asia Pacific

Multidisciplinary capabilities offered by member firms

- Assurance & Audit
- Risk Consulting
- Tax
- Business & IT Consulting
- Financial Advisory/Corporate Finance
- Mergers & Acquisitions
- Sarbanes-Oxley compliance

Key operating principles of member firms

- Committed to integrity and independence
- Unrivaled multidisciplinary approach
- Committed to strengthening the public trust
- Focused on creativity and innovation
- Recognized as an employer of choice

Member Firm Clients

- DTT member firm TMT practices serve nearly 85 percent of the TMT companies in the Fortune Global 500
- Clients of global TMT practices include the world's top software company, computer manufacturer, wireless operator, satellite broadcaster, advertising agency and semiconductor foundry – as well as global leaders in technology services, entertainment, information services, publishing, service provision (mobile, fixed line, cable, Internet), telecommunications and peripheral equipment manufacturing

Member firm commitment to growing companies

- Technology Fast 500 programs – recognizing the fastest-growing TMT companies in North America, EMEA and Asia Pacific
- Technology Fast 500 Global CEO survey

Recent DTT TMT thought leadership

- “The trillion dollar challenge: Principles for profitable convergence”
- “Knowledge is power: Technology, Media & Telecommunications Global Industry Group”
- “The hundred year storm: Wireless disruption in telecommunications”
- “Television networks in the 21st century: Growing critical mass in a fragmenting world”
- “Rational exuberance: 2005 Global Survey of CEOs in the Deloitte Technology Fast 500”
- “Reconnected to Growth: Global Telecommunications Industry Index 2005”
- “TMT Trends: Predictions, 2005 – A focus on the media sector”
- “TMT Trends: Predictions, 2005 – A focus on the technology sector”
- “TMT Trends: Predictions, 2005 – A focus on the mobile and wireless sector”
- “TMT Trends: Predictions, 2005 – A focus on the wire line sector”
- “Getting off the Ground: Why the move to VoIP is a decision for all CXOs”
- “Changing China: Will China’s technology standards reshape your industry?”
- “Moore’s Law and electronic games: How technology advances will take electronic games everywhere”
- “Making the off-shore call: The road map for communications operators”

The Winning Formula

The five companies at the top of this year's DTT Fast 500 Technology EMEA ranking achieved average annual revenue growth over the last five years of just under 30,000 percent.

Catch Communications ASA, a provider of Internet communications and enterprise networking solutions for small and medium-sized businesses in Norway, was ranked first with a five-year revenue growth rate of 77,683 percent.

Runner-up with a 22,229 percent growth rate was TeraGate AG, a German provider of tailored Gigabit Ethernet WAN solutions. Third, with a growth rate of 22,102 percent was Pro Futuro SA, a telecommunications operator from Poland. In fourth place with growth of 13,504 percent was NETSIZE from France, providing mobile business and entertainment solutions. Fifth, with an average growth rate of 9,706 percent, was SwitchCore AB of Sweden, a supplier of Gigabit Ethernet switching devices.

Following are brief backgrounds on the winners as provided by the companies themselves.

Winner

CATCH

Catch Communication ASA is a nationwide broadband distributor that specializes in covering company communication needs in Norway. Catch Communication was established in March 2000, and has experience in delivering network concepts to both the public and private sectors. Catch Communication has built a nationwide infrastructure based on IP and MPLS network technologies and offers cost effective network solutions.

Ranked 2nd

TeraGate

TeraGate develops, implements and operates high-availability Ethernet WAN connections for company locations and data centers of enterprise customers and network operators. Based on a nationwide optical fiber transmission network equipped with the latest DWDM technology, TeraGate offers its customers individually tailored, demand-oriented and future-ready network solutions.

Ranked 3rd

Futuro

Pro Futuro SA is an independent telecommunications operator providing data transmission, Internet access and VoIP transmission services. Services are based on their Infostrada Futuro broadband telecommunications network which was created using state-of-the-art LMDS technology.

Pro Futuro was established in 1998. Their services include data transmission and access to the Internet aimed at corporate customers, large and medium companies, as well as institutional customers. At present, Pro Futuro offers its services in the twelve largest cities in Poland.

Ranked 4th

NETSIZE Group is a worldwide company offering mobile business and entertainment solutions. NETSIZE helps companies implement wireless services aimed at maximizing revenues, improving brand awareness, optimizing business efficiency and developing public services.

NETSIZE provides direct network connectivity over a range of channels including SMS, MMS and WAP, GRPS, 3G, etc and the revenue sharing deals it has put in place with mobile operators around the world cover 600 million billable mobile users customers. In addition, Netsize has also created a mobile service management platform that handles the launch of a wireless service: promotion, ordering, delivery, billing and customer care.

Ranked 5th

SwitchCore AB develops, markets and sells integrated network devices for data, voice and video communication based on the Ethernet standard. The core of SwitchCore's business is in its CXE technology, which allows for significantly higher network product capacity. Using SwitchCore's components, customers can develop network products that cost-efficiently manage and prioritize data, video and voice traffic for many demanding applications.

Fast 500 Continued Excellence Award

This year the DTT Technology Fast 500 EMEA program has launched a new strand: The "Fast 500 Continued Excellence" Award. This award recognizes the company with higher than average first-year revenue which has still managed to consistently achieve a high ranking position in the Fast 500 program.

To be eligible for this award, companies must show annual company revenues in excess of €10 million in year one and in excess of €50 million in year five and they must also have appeared in the Technology Fast 500 EMEA ranking for two or more years.

This year's winner of the DTT Technology Fast 500 EMEA Continued Excellence Award is freenet.de. freenet has appeared in the ranking for the last three years and was number 37 in this year's ranking. In 2004 they were number seven and in 2003 they were number 51. An internet company from Germany, freenet has grown 2,075 percent on average over the past five years.

freenet.de AG, an internet and telecommunications company in Germany, based in Hamburg, is a listed company (WKN 579200) with more than ten million customers with various internet and telephone services such as internet access, chats, email and photo centre services as well as a preselection or call by call telephone service. The business continues its growth with a successful new DSL service and iPhone. freenet is one of the few service providers with its own network, which provides a powerful infrastructure for data transfer.

DTT Technology Fast 500 EMEA Ranking 2005

For the past five years, the DTT Technology Fast 500 EMEA ranking has listed fast-growing public and private companies involved in proprietary technology or involved in technology R&D. They are ranked according to average revenue growth rates over the past five years. In order to qualify companies must have had base-year operating revenues of at least €50,000, year five revenues of at least €800,000 and must be either headquartered in Europe, the Middle East or Africa or have shares listed on a European stock exchange. The ranking is designed to provide a global platform for measuring, recognizing and analysing growth.

Revenue for the DTT Technology Fast 500 companies grew on average 935 percent over the last five years. The winning company achieved growth of 77,683 percent.

The sector breakdown of the ranking in 2005 is similar to previous years. Communications and networking companies provided four of the five top rankings this year and grew their sector share to just under 16 percent. However, the software sector increased its overall dominance of the ranking, providing 47 percent of the ranked companies. Internet, life sciences/biotech, semiconductor and computers/peripherals companies are also well represented.

These exceptional companies deserve to be celebrated as well as studied for the lessons which they can provide to all ambitious companies working in the technology sector.

Disclaimer

The information contained herein is provided by Deloitte Touche Tohmatsu and is intended to provide general information on a particular subject or subjects and is not an exhaustive treatment of such subject(s).

Accordingly, the information is not intended to constitute accounting, tax, legal, investment, consulting or other professional advice or services. The information is not intended to be relied upon as the sole basis for any decision which may affect you or your business. Before making any decision or taking any action that might affect your personal finances or business, you should consult a qualified professional adviser.

The information contained herein is provided as is, and Deloitte Touche Tohmatsu makes no express or implied representations or warranties regarding the information contained herein. Without limiting the foregoing, Deloitte Touche Tohmatsu does not warrant that the information contained herein will be error-free or will meet any particular criteria of performance or quality. Deloitte Touche Tohmatsu expressly disclaims all implied warranties, including, without limitation, warranties of merchantability, title, fitness for a particular purpose, noninfringement, compatibility, security, and accuracy.

Your use of the information contained herein is at your own risk and you assume full responsibility and risk of loss resulting from the use thereof. Deloitte Touche Tohmatsu will not be liable for any special, indirect, incidental, consequential, or punitive damages or any other damages whatsoever, whether in an action of contract, statute, tort (including, without limitation, negligence), or otherwise, relating to the use of the information contained herein. If any of the foregoing is not fully enforceable for any reason, the remainder shall nonetheless continue to apply.

About Deloitte

Deloitte refers to one or more of Deloitte Touche Tohmatsu, a Swiss Verein, its member firms, and their respective subsidiaries and affiliates. Deloitte Touche Tohmatsu is an organization of member firms around the world devoted to excellence in providing professional services and advice, focused on client service through a global strategy executed locally in nearly 150 countries. With access to the deep intellectual capital of 120,000 people worldwide, Deloitte delivers services in four professional areas—audit, tax, consulting and financial advisory services and serves more than one-half of the world's largest companies, as well as large national enterprises, public institutions, locally important clients and successful, fast-growing global growth companies. Services are not provided by the Deloitte Touche Tohmatsu Verein, and, for regulatory and other reasons, certain member firms do not provide services in all four professional areas.

As a Swiss Verein (association), neither Deloitte Touche Tohmatsu nor any of its member firms has any liability for each other's acts or omissions. Each of the member firms is a separate and independent legal entity operating under the names "Deloitte," "Deloitte & Touche," "Deloitte Touche Tohmatsu" or other related names.
